Stringer layout steps

- [ ] Choose straight, crown-up lumber
- [ ] Set stair gauges to riser and tread
- [ ] Mark each step along the board
- [ ] Mark top cut to meet the header or landing
- [ ] Drop the bottom by the tread thickness
- [ ] Cut the first stringer and test fit
- [ ] Trace it for the other stringers
- [ ] Space stringers per code and tread material
- [ ] Fasten with the specified connectors
